## Federation Credentials Verification Service (FCVS)

**FCVS establishes a permanent repository of primary-source verified credentials for physicians and physician assistants, saving duplicative efforts by state medical boards. Established in 1996, FCVS has verified the credentials of more than 100,000 physicians to date.**

FCVS collects and stores high-quality, primary-source verification of core credentials, which include physician identity, medical education, graduate medical education, examination history, Educational Commission for Foreign Medical Graduates certification and disciplinary history. Primary-source verification ensures that state medical boards receive information directly from the source, eliminating the potential for fraudulent documentation.

### Why FCVS?

- The nation's most comprehensive system of verifying and storing credentials
- Centralized, uniform, secure
- A PERMANENT storage solution for physician and physician assistant credentialing records
- Reduces duplication of effort, saves costs, speeds up process
